Unveil, O Thou who givest sustenance to the world, that face
of the true Sun, which is now hidden by a vase of golden
light! so that we may see the truth and know our whole duty

“POINT OUT THE WAY.”

“Point out the ‘Way’—however dimly and lost among the host—as does the evening star to those who tread their path in darkness.”

This injunction to all aspirants for the Higher Life is from the *Book of the Golden Precepts*, one of the works put into the hands of mystic students in the East. Some chosen fragments from it were translated, annotated and published for our daily use by “H.P.B.”—our loved and revered teacher known to the world as Madame Helena Petrovna Blavatsky.

The one and only reason for launching this journal into existence is to be found in that injunction. Human eyes are dimmed by the host of human errors and so the Way to Life is very difficult of recognition; we make bold to attempt the showing of the old Path to the travellers of to-day, including ourselves.

The true philosophical propositions have ever been and must ever be the same; by their aid men have climbed the mountain of evolution. Ours the task to marshal these old-world propositions for the benefit of those who are eager to learn. They are not vague but definite, not changing and evolving, but constant and consistent. They constitute Divine Knowledge—that true wisdom which teaches man the nature of his inner Self, its source and destiny. This ancient and immemorial Theosophy Madame H. P. Blavatsky once again taught, following in the footsteps of her illustrious Predecessors. How her Theosophy is different from, and superior to, what passes current under that name, as also the relation of this journal to Theosophy is explained in our Prospectus printed elsewhere in this number.
